NEW YORK'S MURDER

Progress of the Investigation of the Crime.

SUSPECTED WOMAN BREAKING DOWN

Story of a Little Girl Who Had Slept With Mrs. Nack - Finding of a Bevolver, a Knife and Other Weapons.

New York, July 2 .- These are the latest developments in the murder mys-

The positive identification of the legs Af Coldensuppe by three friends. The practical collapse of Mrs. Augusta Nack, who is under arrest.

The arraignment of Mrs. Nack in Jefferson Market court. The story of Amy Miller, the little

girl who slept with Mrs. Nack last Saturday night. The finding of a bloody knife and saw

and a revolver in Mrs. Nack's rooms. The identification of the mysterious Fred as Martin Thorn. Mrs. Nack was forced to submit to a

physical examination, and bruises were tound on her body, showing a recent struggle.

Mrs. Nack held for examination, when a formal charge of murder will

Mrs. Nack Breaking Down.

Mrs. Augusta Nack, who is held by the police, is rapidly breaking down as the result of the ordeal through which she is passing.

She is feverish and on the verge of hysterics, and in the opinion of the detective bureau she is likely to collapse at any moment.

It is asserted that certain marks have been found upon Mrs. Nack's body. What these marks are none of the persons present at a conference held at

police headquarters will say. Mrs. Nack was forced to undergo a physical examination in the police

headquarters building. It was said afterward that her body showed signs of a recent conflict, as there were a number of bruises.

What parts of the body contained these bruises would not be divulged by the physician or Captain O'Brien.

Neither would it be said whether or not they had got the woman to tell how she had received the bruises, but they are of recent origin. Mrs. Nack was arraigned for the sec-

and time before Magistrate Flammer in the Jefferson Market court. Mrs. Nack was pale and seemed much agitated, the pallor on her countenance being heightened by the somber black

with red trimmings. She was taken from police headquarters by Detectives O'Donohue and Price, and at the court she found her lawyer, Emanuel Friend, ready to de-

Chief Conlin was on hand to look after the interests of the police depart-

ment, while the district attorney's office was represented by Mr. Mitchell. As soon as Mrs. Nack was brought to the bar the lawyers and police crowded

up on the bridge, and from that moment she was shut out from the magistrate and was a mute figure in the subsequent proceedings.

The Legs Identified.

Adam Stubing, foreman of the rubbers at the Murray Hill baths, and Henry Heidelbach and Michael H. Skully, rubbers, have positively identified the legs found in the East river and taken to the morgue as those of William Guldensuppe, the missing rubber. They had worked with him for five

years, and they had seen him naked nearly every night during that time. The identification of the legs and feet

was absolute and positive, and each man sald he was willing to make an affidavit that they were part of Guldensuppe's

"I knew William's feet and legs as well as I knew his face," said Skully. "I knew his knees as well as I knew

any of his features," said Stubing. 'I could make no mistake in William's toes," said Heidelbach, "and I will make an affidavit that those on the feet at

the morgue were William's." Story of Little Amy Miller.

Little 10-year-old Amy Miller slept with Mrs. Nack last Saturday night and was with her until nearly noon on Sunday.

It was only a short time before that the police think, that Guldensuppe was killed, and it was at the request of Mrs. Nack that the child spent the night

"My husband hasn't been home," said Mrs. Nack in explanation, "and I feel worried about him. I can't understand

why he stays away." By the child Guldensuppe was regarded as Mrs. Nack's husband and was

usually addressed as Mr. Nack. He was known by the same name at Buch's saloon and restaurant, at 744 Sixth avenue, and it is in the hotel con-

nected with this place that Amy Miller lives with her mother, the housekeeper. There she first met Guldensuppe, and there she frequently saw Mrs. Nack.

The little girl spoke freely of her visit to Mrs. Nack's house on Saturday night, though, as she now says, the conversation she had with the suspected woman was of such an ordinary nature that she does not remember it

"It was between 9 and 10 o'clock," said Amy, "when mother and I went to Mrs. Nack's. We left the hotel about 8 o'clock, but mamma had some shopping to do, and it was after 9 before

we got to the house.
"Mamma was tired and said she did not feel like being up late, so after we had been at the house for a few minutes she started to go home.

"Just as we were going Mrs. Nack said to me: "Amy, wouldn't you like to stay here with me tonight? Wille-that was Mr. Nack, you know-didn't come home last

don't know where he is, and I can't im-

naine why he doesn't send word." "I always liked Mrs. Nack, and I said I would stay if mamma didn't care. She said I could, and so she went back

"Mrs. Nack and I didn't talk much, because I was sleepy, and she said she

"She asked me about our shopping, and then she talked a little about my school and asked me how I was getting along and if I was having a good time in my vacation.

"Once she said, 'I wonder why Willie doesn't come.' She meant her husband, you know. She always called him Willie or my man.

"I asked her where he was and what was the matter. She said that was what worried her. She didn't know where he was and couldn't understand why he

"I was getting pretty sleepy then. It was almost 11 o'clock, and we went to bed. I went to sleep quick, and it was nearly 9 o'clock in the morning when I

"I know she wouldn't hurt Willie, because she thought so much of him and was worried when he did not come

"There was a man up here to see me and wanted me to go down to headquarters. My mamma wouldn't let me and said if headquarters wanted to see me he could come up here."

At Mrs. Nack's home they found a taw, just such an article as might have been used in the cutting up of Guldensuppe's body.

They found a heavy knife sharpened to a razorlike keenness, just such a knife as the physicians claimed was driven to the heart of the murdered man and which killed him instantly. They found a revolver which might

have been carried by the murderer for use in case the knife falled and a struggle threatened. They also found a knife sharpener

which, like the knife, bore marks of Upon the saw and the knife stains were found that may prove to be blood

spots. An attempt had undoubtedly been made to clean the steel of these stains, but it was a failure.

All the articles will be sent to a chemist for a microscopical examination as well as to test them by all methods known to science.

Papers Received by the Supreme Court Clerk.

POINTS ON WHICH MOTION IS MADE. ARE TO TAKE EFFECT IMMEDIATELY.

Charges Irregularity and Illegality of Proceedings-Wants Publishers Punished For Printing Detrimental

Stories-A Stay Until October.

Washington, July 2.—The papers in the appeal of W. H. T. Durrant, under sentence of death in San Francisco for the murder of Blanche Lamont, have been received by the clerk of the supreme court of the United States. The appeal is from the decision of the circuit court of the United States for the Ninth circuit in refusing to grant Durrant's motion for a writ of habeas cor-

In his petition Durrant alleges the irregularity and illegality of the proceedings against him in the California state courts in that the trial was "conducted upon information not in accordance with the equal protection of the laws and not by due process of law," and that testimony was introduced and conviction secured without due process of law and without a trial by an impartial

jury and without process of law.

Some Points Made. Particularizing, he says that prosecution by information instead of indictment by grand jury is in conflict with the fifth and fourteenth amendments to the constitution, as is section 809 of the penal code of the state, under which his prosecution was conducted. Hence, he alleges that the courts in which his examination and trial were conducted were without jurisdiction. He contends that the refusal of the court to grant a change of venue amounted to refusing a fair trial

He also complains of the refusal of the court to punish for contempt the publishers of San Francisco newspapers in publishing accounts detrimental to his -Durrant's-interests in having a fair trial, thereby interfering with the procedure of the court and prejudicing the jury against him.

As the supreme court will not sit again until Oct. 12 the appeal cannot be argued before that time.

A Message From Asia.

New York, July 1.-Mr. H. Dharmapala, representative of Astatic Buddhists to the parliament of religions, has issued an address in which he announces that he brings a message of peace and love from his people to the American people. He contemplates establishing a school of practical ethics and psychology near New York to train young people for missionary work in the east and America. The students will, Mr. Dharmapala announces, lead strictly the higher religious life as taught by Buddha and Christ. He wishes all those who are in sympathy with the work to communicate with him at 509 Fifth avenue, New York.

Beheaded by a Train.

Cooperstown, N. Y., July 2.-Frank Burnside, 38 years of age, was run over. beheaded and otherwise badly mangled by one of the excursion trains which left here after the soldiers' reunion. He had started to walk from Cooperstown Junction to Clintonville to begin work and had reached a point a little above Milford, eight miles below here. The accident was not known until several hours later, when a man crossed the track and found the headless body and the head some distance away down an

Steamer to Transfer Mails.

New York, July 2.-The harbor steamboat Peekskill, which will be employed in transferring mails from incoming steamers to the city, is a propeller. Her hull and upper works are painted white, and the craft presents kill flies a United States mail flag. The White Star liner Germanic, which was due yesterday afternoon from Liverpool, was the first steamer to transfer her mails under the new arrangement.

Steamer Romer Still Ashore.

Kingston, N. Y., July 2.-The steamer William F. Romer of the Kingston night line is still fast in the mud near Esopus light. Several futile attempts have been made to pull her off. Pontoons have arrived, and an attempt will be made to raise her at high tide. There is some doubt about floating the steamer, owing to her bad position. The Jacob H. Tremper of the Newburg and Albany line is taking the Romer's

Discovery of a Comet.

DURRANT'S APPEAL. CIVIL SERVICE RULES

They Are Approved by New York's Governor.

Minimum Marking Fixed-Appointing Offcers May Hold Examinations or Designate Commission to Do So. Some Positions Are Exempt.

Albany, July 2.—The rules to carry into effect the provisions of the new civil service law have been adopted by the civil service commission after a consultation with the governor, and the rules as revised by the commission in accordance with the ideas of the governor were formally approved by him, and they take effect immediately. The rules adopted are practically amendments to the existing rules, as the greater portion of the old rules remain the same. These additional rules provide for examinations for all positions in the state service every three months. when there are a sufficient number of applications on file, and whenever the

heads of departments so request. Every eligible candidate whose name appears upon a merit list in the office of the commission must notify the commission at least once every three months that he is willing to accept an appointment if tendered to him, and if he desires to have his name continued on such list, and if a candidate declines to accept an offer of appointment from any officer authorized to appoint from any list he shall waive his right to appointment, and his name shall be

stricken from such list. The minimum marking is fixed at 35 per cent for each, the merit and fitness examination

The appointing officers may in their discretion hold their examination for fitness or designate the state civil service commission to conduct the examination both for merit and fitness.

Must Pass Competitive Examinations. Unless the examination for fitness is conducted by the commission the appointing officer or board must certify to the commission that the ratings for fitness were determined by competitive

examination, as provided by law. Whenever the sex of the persons whose names are to be certified is fixed by law or is specified in the request for certification, the names only of those of the sex so fixed or specified shall be certified from the merit list, but in all other cases the certifications shall be

made without regard to sex. The following offices or positions were placed on the exempt list: Banking and agents of the section superintendents in the department of public works, the chief clerk of the tax department and the cashier of the insurance department and the stewards of the several state hospitals. Under these rules, if the head of a state department authorizes the commission to hold both merit and fitness examinations, only the first name on the eligible list so created by this examination can be certified for appointment. The present law allows the appointing officer to appoint from the first three on the list. The commission has also approved the new rules adopted by the civil service commission of Buffalo, Brooklyn and New York.

Distribution of the Holt Estate. Washington, July 2.-By an order of the district supreme court, the one-half of the estate of the late Joseph Holt which was claimed by Lizzie Hynes under the alleged will will be distributed among the heirs at law. According to the decree, Washington D. Holt receives \$15,500; William G. Sterrett and Margaret Brown each \$7,753, and six children of Robert S. Holt each \$2,584. The court found that Edmond Kidd, who claimed a share of the estate for his ward, James H. Holt, a granda very natty appearance. The Peeks- | nephew of the deceased, was not en-

titled to be a party to the distribution. Receiver For Stone Mill Company. Bedford, Ind., July 2.-Alva B. Tresslar has been appointed receiver for the Bedford Stone Mill company. The company owes a large amount of money, and the application for a receiver was made in behalf of the creditors. The complaint alleges that the company is about to become insolvent and that a large mortgage is about to be foreclosed, which will leave the general creditors unprovided for. The plant is a valuable onc, and it is thought that it will again be in operation.

United States Monetary Commission. Paris July 2.—The United States monetary commission, headed by Senator Edward O. Wolcott of Colorado, will start for London at the end of the week. The commissioners express themselves as being well satisfied with the results of their negotiations here and with the general outlook. There is a strong behef in this city that the commissioners have accomplished something tangible in France.

Boston's New Immigration Commissioner. Boston, July 2.-Colonel George B. Billings has taken charge of the office of United States immigration commissioner. He called at the office of Hon. Winslow Warren in the custom house and was swork in and later went to the immigration office, where Acting Commissioner Hurley introduced him to the members of the inspector's force.

Falled to Identify Prisoner. Philadelphia, July 2 .- Detective Whit-

rut in the road. comb of this city has returned from Coney Island, where he had been sent to see if John Adams, in custody there on the charge of vagrancy, was the Adams wanted here for the murder of his aunt. Mrs. Rogers. Whitcomb stated that the Coney Island prisoner was not the man wanted.

LYNCH LAW INVALID.

Decision In a Riot Law Case Rendered In Cleveland.

Cleveland, July 2.-Judge T. K. Dissette of the common pleas court has decided the Smith Lynch law invalid. The law, more properly speaking, is a riot law, permitting persons injured in riots to recover from the county. It went before the court in the form of a damage suit brought by J. W. Caldwell against the county to recover damage for injury received at the Brown Hoisting and Conveying Machine company's strike. The court did not hold the law making counties and municipalities liable for property destroyed by mobs unconstitutional. He held the legislature had the right to enact laws to protect both

persons and property. He held, however, that the conviction and punishment of the offenders should be a bar to the recovery of any damage. He thought it more logical to invest the commissioners with authority to prevent riots before passing a law making the county liable for injuries. However, the serious defect lies in the wording of the law, fixing damages absolutely at \$500 for slight injuries and \$1,000 for serious injuries inflicted by a mob. The court held that two or three persons may constitute a mob, and that the law opened up the way to innumerable damage suits against the county Moreover, it placed the damages beyond the jurisdiction of a jury, and the amount of damages would likely be altogether out of proportion to the injuries inflicted. The law was therefore decreed invalid and unconstitutional.

HELD FOR MURDER.

Negro Caught at Haverstraw Who Is Charged With Killing an Italian. Clinton, Mass., July 2 .- The Clinton police have received a dispatch from Haverstraw, N. Y., stating that John Henderson, a negro, had been arrested there charged with manslaughter in causing the death of Giovanni Cava-

naugh, an Italian laborer employed on

the Metropolitan aqueduct at West

Early last month the two men quarreled, and Henderson, it is charged, struck Cavanaugh with a shovel. The Italian never regained consciousness and died soon after. Henderson fied and could not be located until last week, when the police, following up a clew, found that he was at Haverstraw. Henderson acknowledged that he is the man wanted.

POISONING SUSPECTED.

The Body of Horace M. Singer to Be Subjected to Analysis.

Chicago, July 2 .- The body of the late Horace M. Singer, the millionaire who died at Pasadena, Cal., in December has been exhumed at Lockport and the stomach sent to a Chicago chemist for examination. This action, which was taken by Mr. Singer's son, furnished another turn in a sensation which was first started several weeks ago, when rumors began to circulate to the effect that the younger Singer believed his father's death to have been due to

H. M. Singer was a wealthy quarryman, with an estate of some \$2,000,000 He resided in Chicago and was for years identified with all the great building enterprises of the city.

Vessel Out of the Navy. Boston, July 2.-The Yantic is no longer a part of the navy of the United States. At exactly 2.02 yesterday the final orders of the navy department were carried out. The officers and crew assembled on deck, and Commander Miller read the order that made the vessel no longer a part of the navy. The flag was then hauled down and the crew dismissed. Many of the crew of the Yantic are now on the receiving ship Wabash, while some have been transferred to the Marblehead. The officers have not yet received their orders.

Another Loan Association Gives Up. Louisville, July 2.—The Globe Building and Loan association went to the wall finding itself unable to carry on business under the state law as construed by the appellate court. The assets and liabilities are estimated at \$400,000 each. L. O. Cox is president. The managers of the other building and loan associations have issued cards calculated to restore confidence, claiming that the ruling of the court did not affect them This makes the third corporation of this character that has gone under in two days.

DEBATE'S PROGRESS.

Unempected Amendments Cause Some Surprise.

THE TARIFF BILL NEARLY COMPLETED.

Reciprocity Section and Some Minor Paragraphs-Senator Teller's Bill on Mortgage Foreclosure.

Washington, July 2.—The finance committee suffered several unexpected reverses during the progress of the tariff bill, being defeated on three important votes. Cotton bagging was placed on the free list-30 to 25-and cotton ties also by a vote of 29 to 23. The duty on white pine lumber was reduced from \$2 to \$1 per thousand-32: to 31. The amendment on pine occasioned the greatest surprise and led! to a general breaking up of party lines; on both sides of the chamber. During the early stages of the debate the duty on lumber, including pine, was placed; at \$2 after a protracted contest. Mr. Teller has returned to the contest and, moved to place white pine lumb r on the free list. The amendment was defeated by the close vote of 32 to 23, four Republicans-Baker, Carter, Hansbrough and Quay-joining with the Democrats, Populists and silver Republicans in the affirmative, while, three Democrats—Bacon, McEnery and Martin-voted with the Republicans inthe negative. Following up this close vote, Mr. Mantle, silver Republican, moved to reduce the rate on white pine from \$2 to \$1, and this carried by a majority of 1. Two Republicans-Baker and Carter-voted with the Democrats in the affirmative and three Democrats-Bacon, McEnery and Martin-with the Republicans in the nega-

tive. The bill is now completed, with the exception of the reciprocity section and some comparatively minor paragraphs. Much progress has been made in clear. ing up detached paragraphs heretofore passed over. Only three of thesecoal tar, potash and tea-remain, so that these items, the reciprocity section and the brief internal revenue and administrative provisions are all that remain of the bill to be disposed of be-

fore the final vote is taken. Senator Teller has introduced a billy providing "that a suit in equity for foreclosure of mortgage or for enforcing any lien upon or against a railroad or other line of transportation extending into or through two of more districts or circuits of the United States shall be brought only in that where the greater part of the property subject to such mortgage or lien. shall be. In estimating the quantum of property subject to such mortgage or lien the greater mileage, excluding leased lines, shall be taken to be the greater part."

The senate confirmed these nomina-J. F. Gowey of Washington to be consul general at Yokohama, George N. West of the District of Columbia, consul at Sydney; W. J. PAINLESS DENTISTRY.

Killing of Pain is the Laudable Object of Cataphoresis.

"You want to know what cataphoresis is?" said Dr. E. C. Chase, the dentist, to a reporter of the St. Louis Republic, in search of an explanation for the new treatment dentists are discussing on paper and verbally.

"Cataphoresis means the medication of a tooth by an electric current. First of all, the new treatment is only applied in the filling of teeth; not in the extraction. The idea is the medication of the sensitive cavity of a tooth by driving cocaine up into it by means of a weak electric current. The patient, as a rule, is unconscious of the current

CATAPHORIC APPARATUS.

(Removes All Pain in Filling Teeth.) passing through his tooth. In extracting a nerve the new treatment is invaluable, although I have no doubt that in a few years it will be supplanted by something else. It is very difficult to affect the hard substance of a tooth with cocaine without this electric current. With it the toxic effects of cocaine are much more readily obtained.

"The cataphoric apparatus consists of a little dry cell battery, with 21 cells, a volt selector, a current controller and a milliamperemeter, with a set of electrodes. One of the poles is connected with the cavity of the tooth, the other with the outside of the face, by means of a sponge.

"The cataphoric battery is usually inclosed in a nicely polished case, and can stand at some distance from the patient, so that he need not be made nervous by seeing it before his eyes. Local anaesthesia by means of cataphoresis is quickly obtained, and the most painful nerve can be extracted in a short time after the treatment has been applied.

"The application of electricity in the dental chair in its present form is but a revival of what we used to do 25 years Electricity was in its infancy then, and we didn't know how to handle it as well, although we obtained some

pretty good results even in those days. "You may quote me as saying that the new fad of cataphoresis, for fad it is, will in a few years hence give way to something else, better and less dangerous, in the hands of quacks, for the ntmost caution is necessary to handle the cataphoric apparatus properly and without injury to the patient."

CANTILEVER WHARE

Fine Piece of Engineering Work Just Completed in Spain.

The Spanish province of Santander has no seaport. The rocks rise boldly out of the sea and leave no openings for the landing of vessels. But the country is rich in ore, which must be shipped by water. Modern science provides the way by means of a cantilever wharf.

The illustration given is a wharf at the Setares mines in Salta-Cabelle. The wharf of steel reaches out like a finger over the sea for 65 feet. Including the land connections, it is 325 feet long and

CANTILEVER WHARF. (Recently Completed at Salta-Cabelle, Spain)

weighs 800,000 pounds. It is 35 feet above the water at high tide. The ore is run in cars along the two tracks upon the structure to the very extremity of the wharf and there quickly unloaded upon the waiting vessels. More than 3.000 tons of one can be loaded in this way in 12 hours.

The Language of Criminals. In spite of all that may be said to he contrary, there is a language peculiar to criminals in each country. It is an adaptation of certain words in common use, a destructive process, the attempt to reduce a matured language use it for protection as it is always well known to the police, and if overheard by an ordinary citizen would render the speaker an object of suspicion. It seems to be a sort of trade language that changes every two or three years. It is rich in expressions which denote common actions. There are nearly 100 words which signify theft. All the pockets in men's and women's clothing havé separate names. It has not an expression for abstract emotion.

Battling with Locusts.

A special agent of the department of agriculture has left Washington for the Argentine Republic, where he is to plan a campaign against the locusts. No doubt this war seems to the agriculturists of our sister republic a far more vital matter than the struggle in Greece. A grasshopper in hand may appear more formidable than two Turks in the

He is now approaching his sixty-first year, and it is not too much to say that every seasoned physician in the United States has either met him or heard of him. Dr. Sternberg has no lack of experience as a physician. He was graduated as an M. first experience was with the army of the Potomac, but he was captured by the confederates at Bull Run. He escaped and went to Washington. Thence the authorities sent him to Florida, and the doctor made his first and most intimate acquaintance with yellow fever. Since that time he has been an authority on that disease. In 1879 he was sent to Havana by the United States as a member of the commission on yellow fever, and in 1885 he attended the international convention on sanitation. held at Rome, as the representative of the United States. Dr. Sternberg has rendered vast aid to science with the results of his researches in the matter of microscopic investigation, and his additions to the literature of bacteriolegr have been most welcome to his contreres in Europe and America. The doctor's present rank is that of surgeon general of the United States army.

MOVING A CHIMNEY.

Dighty-Five Foot Structure Fransported Acatly 1.000 Ceet. There are two ways of moving a chim-

One way, and that usually followed, is to tear it down carefully and rebuild it in the desired place. This utilizes only the brick and means a great deal of labor. The other method of moving a chimney is to handle it much as a house would be handled and to move it bodily and without tearing it lown by putting it on skids.

This latter method was followed by a firm of contractors of Bridgehampton, V. Y., in moving a chimney for the Manunset Improvement company at Ma banset, N. Y. The chimney is 85 feet high and seven feet square at the base. It weighs nearly 100 tons, and yet it was moved a distance of 950 feet over rough roads and up and down steep grades without injury or accident. But six men were required to do the work.

FACTORY CHIMNEY, (Moved 950 Feet at Mahanset, N. Y))ne horse attached to a windlass fur nished the needed power.

The accompanying picture, made from photograph reproduced in the Sciptific American, shows the style of maces used and the sort of sled on thich the chimney was moved. The hids were well greased on the botom, and the rate of progress was so ast that but nine days elapsed from the time work was begun until the chiminey was securely located on its new foundation.

Food Laws in France.

France knows how to protect the ights of her people. Anybody who doubts the genuineness of an article of food that he has purchased from a Parisian tradesman may take it to the municipal laboratory for analysis. It will cost him nothing to have it analyzed and the fact determined whether it is unadulterated or adulterated, and if the latter the law deals with the offender without further action on the part of the purchaser. The shopkeeper is liable to be heavily fined and imprisoned, and has to display conspicuously in his shop window or on his door for a year a large placard bearing the words "Convicted of Adulteration."

-Next Monday, July 5th, will be a gala day in our village, as has been advertised by posters throughout the surrounding country. Perhaps the most interest will be taken in our ball club's two games with the Newburghs. Our ream is in good shape and it would not be a surprise if our boys turned the tables on the Newburghs and won both games, instead of losing both games as they did last year. The battery for the Bullvilles in the morning game will be our young pitcher. B. Shaier, and catcher J. Sherer. In the afternoon Scott and Sherer. Great preparations are being made for the evening picnic and ball. Instead of having it in Justice George Green's new building, a large platform has been erected right in our village for dancing and good music has been secured. and an enjoyable time is guaranteed to everybody who attends. The committee has also secured cheap rates of fare on the Crawford Branch. Excursion rates from Middletown only 35 cents. From Pine Bush only 25c. Tickets good for returning next day. Our village is preparing to accommodate one or the largest crowds that has ever been known in our history.

-The W.Jenning Demerest gold medal contest was postponed on account of the ram. Tuesday evening, and will now take place Friday evening, July 9th.

-Mr. Houston, of the Y. M. C. A. of Middletown, will preach at the M. E. Church in this village, Sunday morning.

-Our public school closed Wednesday for the summer vacation. The teacher, Miss Anna Unkenholz, has gone to her home at Liberty. Advices Brought From the Island Tell of a Murder Plot.

Vancouver, B. C., July 2,-The steamship Empress of China, which has arrived from the Orient, had among her passengers Judge Mowat of Shanghai, who presided at the trial of Mrs. Carew, and who is now en route to England. The steamship brings the following advices:

Over 20 arrests have been made in Seoul, Korea, in connection with the discovery of an alleged plot to assassinate several prominent persons. Japanere papers allege that a Russian party was at the bottom of the plot and that they are now taking advantage of its discovery to induce the king to return to the Russian legation.

The Japanese government has imposed new taxes on land and on leaf tobacco in order to meet the increasing demands upon the treasury since the

Fresh efforts are being made to have the murderers of the queen of Korea punished, a petition having been presented to the king to that effect.

HOT WEATHER DYSPEPSIA.

Thousands Suffer From It at This Season of the Year.

Hot weather dyspepsia may be recognized by the following symptoms: Depression of spirits, heaviness and pain in the stomach after meals, loss of flesh and appetite, no desire for food, bad taste in the mouth. especially in the morning, wind in stomach and bowels. irritable disposition, nervous weakness, weariness, costiveness, headache, palpitation, heartburn. It is a mistake to treat such troubles with "tonics purifiers," "catharties." "pills." because the whole trouble is in the stomach. It is indigestion of dyspepsia and nothing

All these symptoms rapidly disappear when the stomach is relieved, strengthened and cleansed by Stuart's Dyspepsia Tablets. They should be taken after meals and a few carried in the pocket to be used whenever any pain or distress is felt in the stomach. They are prepared only for stomach troubles.

Stuart's Dyspepsia Tablets are endorsed by such physicians as Dr. Harlandson, Dr. Jennison and Dr. Mayer, because they contain the natural digestive acids and nutt essences which when taken into the stomach cause the prompt digestion of the food before it has time to ferment and sour, which is the cause of

the mischief. Stuart's Dyspepsia Tablets are pleas? ant to take and unequalled for invalids. children and every person afflicted with imperfect digestion. It is safe to say they will cure any form of stomach trouble except cancer of the stomach. All druggists sell Stuart's Dyspepsia

FRIDAY, JULY 2, 1897.

The Newburgh Nail and Iron Works. organized by Congressman Odell and which purchased the Kilmer plant in that city, have shut down indefinitely, it having been found impossible to continue the business at a profit. About 100 men are thrown out of employment, which is the worst feature of the affair, for no one can get up much sympathy with Mr. Odell in the tuste that he is get ting of McKinley prosperity.

Senator Platt has won his fight for the control of New York's patronage and his man, George C. Bidwell, has been appointed Collector of the Port. The McKinley Leaguers, who counted on being able to defeat Platt's candidate, even if they were not able to secure the nomination of the candidate of their choice, are very much chagrinned and ore wondering to what lengths McKinley will carry this policy of punishing his friends and rewarding his enemies.

The State Civil Service Commissioners, yesterday, adopted rules to carry into effect the provisions of the starchless civil service. Examinations for "merit" will be conducted by the commission and examinations for "fitness" by appointing officers, or by the Commissioners, if the appointing officer so requests, which isn't likely. A number of positions, among them State Hospital stewards and banking and insurance examiners, were placed on the exempt list.

The Republican Senators, in caucus, yesterday, 'decided that no anti-trust amendment should be added to the tariff bill. This decision was expected by all who know the close relations existing between the Republican party and trusts of various kinds. The party which has built up and fostered trusts and which receives financiataid from them in every campaign could not be expected to legislate adversely to their interests. There has been much fine talk about curbing trusts, but it was merely a play to the galleries. There was no heart in it.

Republican senators, after amending the tariff bill in iavor of all sorts of special interests and without regard to the *ffect of the amendments on the revenue producing capacity of the bill, have made the unwelcome discovery that the bill in its present form will not yield revenue enough to meet the needs of the Treasary. An increase in the tax on beer seems the easiest way of meeting the emergency, and despite the opposition of senators from the beer producing states, an increase of forty-four cents a burrel in the beer tax was practically decided on, yesterday. The proposition to tax tea ten cents a pound was voted down and in its place a stamp tax on transactions in stocks and bonds will be

No New Developments — Police Still Searching for Martin Thorne, Mrs. Nack's Companion.

BY ASSOCIATED PRESS

New York, July 2-There are no new important developments in the Guldensuppe murder case. Mrs. Nack is still in custody and will be remanded from day to day awaiting developments.

The police are bending all their efforts to find Martin Thorne, the man who is believed to be implicated and is alleged to have been Mrs. Nack's companion in the surrey ride which she took Saturday.

Doubts as to the identification of the body are not regarded by the police. It is thought possible that Thorne may

have gone abroad and Mrs. Nack intended to join him. In Mrs. Nack's corsets \$340 in bills have been discovered.

But "Lord Willie" Coutant Has Not Called for the Team That He Agreed to Take.

A West Main street liveryman is not in a happy frame of mind nowadays when 'Lord Willie" Coutant's name is mentioned, and it is all Willie's fault.

He strolled into a livery, a few nights ago, and told the proprietor that he a anted to buy a cheap team. The liveryman inquired as to what constituted a cheap team in his mind, and Willie answered, "Oh. anything worth about \$500." The liveryman's nerve was severely jarred by this answer, as he had considered \$150 about the amount required to purchase a "cheap" team. He at once turned him over to a neighboring liveryman who deals in horses, and the latter showed him a tne pair.

Willie was well pleased. He rode all over town, and finally asked that they be sent up to bis wife's father's house the next day in order that she might see them. This was done, and a second day's riding was had. That night the liveryman states that "Lord Willie" agreed to take the borses and said that he would call for them in the worning.

He hasn't called yet, and this happened several days ago. Both liverymen are angry, and "Lord Willie" is probably laughing at the joke on them.

Why the Wedding of George Hubse and Mate Pope Mid Not Take Pince as Arranged-Bridegroom Had a Wife Living and Br. Beattle Was Not Satisfied With his Story of a Divorce.

The following appeared exclusively in the Argus of June 24th:

George H. Hulse, the well known mem bers of the ice firm of Crotty & Hulse will be married to Miss Pope, also of this city, to-night at 8 o'clock. The ceremony will be performed by Rev. Dr. Beattie, at the home of Charles I. Huise, the groom's father, at Phillipsburgh. About sixty friends have been invited to be present W. M. Virdoa is to be best man and Miss Hattie B. Hulse bridesmaid. The couple go to New York on their wedding trip and on their return will reside at Mechan-

It was followed on June 25th by the following:

HULSE-POPE-At the Free Christian parson age, June 24th, '97, by Rev. C. M. Winchester, George W. Hulse and Kate W. Pope, both of Micdletown.

Inasmuch as the information contained in the first item was obtained from Mr. Hulse himself, the change in the wedding arrangements seemed a little peculiar and an ARGCS reporter who has been looking into the matter has at last learned the why and wherefore of it.

It seems that Mr. Hulse was married several years ago to Julia Harrington, of Burnside,. They quarreled and separated and it is understood were devorced. At all events, Mrs. Hulse married again and is now living at Burnside with her second husband and two children.

The wedding guests were assembled at Mr. Hulse's father's at Phillipsburgh, Thursday evening of last week, for the expected marriage of Mr. Hulse and Miss Pope. It seems, however, that Dr. Beattie, while on the way to Phillipsburgh, received a tip that Mr. Hulse had been married before and that his wife was lying, and before performing the ceremony he questioned Mr. Hulse. who admitted the prior marriage but said that he had obtained a divorce at Poughkeep-

Dr. Beattie asked to see the decree, but Mr. Hulse said that some one had got it away from him. Dr. Beattie was not satisfied and declined to perform the ceremony and then Mr. Hulse and Miss Pope left the weading party and came to this city and were married by Mr. Winchester.

Mr and Mrs. Hulse left this city, Monday, and Mr. Hulse, a highly respected farmer of Phillipsburgh, who was seen by an Argus reporter, this afternoon. and from whom the facts embodied in this article were obtained, says he does not know where they went.

The fire which destroyed three barns and their contents in that village early on the morning of June 23d started in the barn of Chauncey Merritt, and it was thought that Richard Anky, a former employe of the Merritts, had set fire to the place. The Coroner and Assistant District Attorney Seeger examined about twenty witnesses. The evidence did not in any way point to Anky, though the jury was convinced that the fire was of incendiary origin.

May Have Been Murdered.

Many people in Pikecounty believe that the man whose body was found on the Erie track, near Rowlands, Saturday morning, was murdered an I robbed, and the body placed on the track to conceal the crime. It is asserted that when last seen he had two rolls of bills and some gold in his possession, but only fifteen cents were tound on his body. The man was a German, about sixty years old, but no one knows his name.

GRIEVANCE DAY" WILL BE LIVELY City Assessors Nave Assessed Real

Estate at Pull Value and Also Much Personal Property.

The city assessors have completed the assessment roll and it may be seen at the City Clerk's office until July 26th, when the assessors will meet to hear grievances.

In obedience to instructions from the State Tax Commissioners the assessors have assessed all real estate at full value and have made every effort to reach personal property and place it on the rolls. The result is, of course, to very materially increase the total assessment and it is probable that "grievance day" will be the liveliest affair of its kind that Middletown assessors have ever experienced

Freight Car Lockups Have Their Ad-

Capt. Veber suggests that it would be a good idea to keep the lockup in course of repairs for an indefinite period. The temporary freight car lockups have not yet had an occupant, and the Captain attributes this to the evil doers' dread of occupying such undesirable quarters. He thinks that a general scramble will ensue amongst the chronics for the distinction of being the first boarder in the city's new hotel.

What Ails the Potato Vines?

Several fine patches of potatoes in this city have shown signs of blight, within the past week. In some cases the affection comes on suddenly, the whole appearance of the vines changing in a single night. At other times, the trouble comes on more slowly, the lower leaves wilting and turning brown, the trouble slowly extending up the stalk. The cause of the blight has not yet been discovered.

A TEXAS COMEDY. Which Eas Some Indications of a

Mrs. Tabitha Jones lifted high her Connecticut nose, breathed deeply the balmy air of south Texas, and listened. From the kitchen region, through the open window, came distinctly these words: "Now git down dar on dem coals, you debble, an' stay dar,"

Mrs. Tabitha's Puritan blood was aroused. "Hit's all erlong ob you ef dinna's late, but I speck I don fix you now, you raskil." Had the black woman, in a fit of passion and carried away by atavistic savagery and cannibalism, sacrificed her own offspring? And Mrs. Tabitha's mind reverted to Aunt Cynthia's small woolly prototype, which two days before had arrived along with Aunt Cynthia's clothes and other effects. Her sympathies had halted at this little creature when she saw it deposited on her kitchen floor, but now its humanity called to her.

With trembling courage she stepped quickly and softly to the kitchen and slowly advanced her head beyond the edge of the open door. The smell of burning flesh filled her nostrils. At the front of the stove stood Aunt Cynthia; in her hand, lifted threateningly was a large flesh fork; on her lips this final taunt: "Now I 'speck you gwine te behave yo'sef!" and she jabbed vigorously at something hidden from Mrs. Tabitha by the stove.

Looking up, the negress caught sight of the pale, rigid face projected just beyond the jam of the door. She uttered a loud scream, dropped the fork, and half fell against the kitchen table. An ashen hue settled over her dark face as she gazed at the apparently dissevered head, and it was not until Mrs. Tabitha finally presented her full figure at the doorway that Aunt Cynthia was

"What done happen in de house, Miss Bithy? Is you seen a ghostie?" she gasped. Making a great effort to efficiently oppose her civilization to the barbarism confronting her, Mrs. Tabitha said, in a quavering voice: "Cynthia, I know what you have done, and you'd ought not to done it."

Aunt Cynthia began to recover. "Lo'd Gowd, Miss Bithy, what's I

"Where is your baby?" solemnly. "Pomp? He's asleep—dey ain't nuffin' hu't him, his it?" and with sudden fright the negress hurried to an adjoining room, almost immediately returning with a small bundle of black and white-half asleep, but intact. "How you done skeer me, Miss Bithy!" A faint color began to show on Mrs.

Tabitha's cheeks. Crossing the kitchen, she walked around to the front of the stove. "Where'd you get that chicken?" she asked, severely, pointing to the half-cooked fowl on the broiler. " seen dat chicken walkin' roun' like

he's los', Miss Bithy, so I dess ketch him an' cook him fur dinna," and she continued to apostrophize the guilty bird while she shook down fresh coals. With her other arm she tenderly supported the baby against her shoulder.— N. Y. Journal.

HOW NOT TO NURSE.

The Vigorous Outburst of a Victimized Patient.

Helen Hunt Jackson, in a letter to her physician, destribes a stupid nurse as follows:

Can I endure the presence of this surly, aimless cow another day? No! Why?

She has less faculty than any human being I ever undertook to direct in small matters.

When I ask her to bring me anything. she rises slowly with a movement like nothing I ever saw in my life, unless it

She sighs and drops her under jaw after every exertion.

She "sets" with a ponderous inertia which produces on me the most remarkable effect. I have a morbid impulse to fling my shoes at her head and see what would come of it. She asks me in dismal tones if I am

well in other ways besides my throat, conveying the impression by her slow rolling eyes that I look to her like a bundle of unfathonable diseases. She takes the tray out of a trunk to

ret some article at the bottom (where articles always are), and having given me the article asks helplessly if she thought.) Next time I'll tell her: "No

we keep the trays in piles on the floor."
Is this Christian? No, for she is well-meaning and wishes to-do aright, and I don't doubt every glance of my ere sends a thrill of inexplainable disconfort through her,

llut as a professional nurse she is the playest joke I ever saw .- Every Where.

A woman who is quite able to take care of herself is no novelty nowadays, There are plenty of them. The "batchelor girl" is a recognized institution. But though women have grown amazingly independent in many ways, they are not independent of their womanhood; and the best

escape from the fact that Nature intended them to be wives and mothers and to this end has equipped them with a delicate special organism which is the heystone of their whole physical existence, and which when weak or diseased causes four-fifths of all their sufferings.

Women make a dangerous mistake when they allow these delicate complaints to go on unchecked, wearing down their nerves and sapping their very life away. It may end in complete physical and mental wreck. And there is no possible necessity of it.

Thousands of women who have never got any help from doctors have been promptly and entirely cured by Dr. Pierce's Favorite Prescription. It heals the internal source of these ailments; purifies and invigorates the nerve-centres and supplies genuine organic strength and vigor. It is the only medicine prepared for this one purpose by a skilled, experienced physician; it is the only medicine which fulfills that purpose.

MEDITERRANEAN HOUSE RENTS. Highest at Gibraltar and Lowest on

the Island of Malta. In no place on the surface of the globe is rent so high as at Gibraltar, the reason being, says the Philadelphia Inquirer, that the geographical position of the town precludes the possibility of its being extended in any direction. A long, narrow strip of what was once sea beach is alone available for building purposes. All the rest is precipitous rock.

Upon this narrow parapet, in some eases less than 100 yards in width, are crowded the homes of 25,000 people. As much as ten dollars a week is asked and obtained for the use of one small room, and this, too, in a place where the normal rate of wages is quite ten per cent. less than in America. Naturally, the overcrowding is fearful, and, the water supply being scarce and intermittent, cleanliness of living, as we understand it, is almost impossible.

No wonder that in the old days the plague and the cholera ravaged the rock" with a virulence unknown in the filthy and pestilential cities of the far

In Malta, on the other hand, house rent is ridiculously cheap. Anywhere outside of Valetta an excellent sevenroom house can be had for \$15 a year, while rates and taxes are unknown. The houses are built entirely of the cream-colored stone of which the island is composed, and which is so soft that it can be cut with a saw into blocks or slabs of any desired size or shape. So, while the Maltese builder is digging up his foundation, he is at the same time getting out the material for his walls, his flooring and his roof.

WORKED AN OLD TRICK. The Deaf and Dumb Man Had to Speak.

"In my time," said a broker to his friends at Delmonico's the other day, according to the New York Times, "I have observed many sad and touching scenes, but never one which affected me as much as the one I witnessed last

"Passing along a busy thoroughfare, paused for an instant in order to read and reflect upon the miseries of a man who bore the legend 'Deaf and Dumb.' picturing to myself my own condition under like circumstances, when the following remark somewhat startled me: " 'Say, Jimmie, here's a poor deaf and

dumb man. Father gave me five cents to spend, but I think I'd rather give it to him. He needs it more than I do.' "This was followed by the chink of a

coin in the tin cup. "Instinctively I turned to the boy who had made this remark to his companion and said:

" 'Noble boy, I overheard your generous words. You shall not want for the money. Here is a dime.'

"With a curtsey and 'Thank you, sir,

CUPID IN JAIL

A Reminiscence of a Sly Courtship lears Ago.

"Cupid is no respector of persons or places," says a member of a well-known Washington family, according to the Star, "for while 'love laughs at locksmiths,' Cupid, to my knowledge, has made himself felt behind prison bars. Do you remember the old Washington infirmary, which stood behind the courthouse? Well, that was the jail in old times—from 1804 to 1838. In those days there was imprisonment for debt, and quite a handsome young man, unable to meet his obligations, became a prisoner. The jailer lived in part of the building, and his family included a pretty daughter. Cupid set to work, and the bars were no obstacle. In a little while looks betrayed Cupid's conquest. One day, while on the streetdebtors being allowed to go outside, but not beyond the prison boundsthey met, had a talk which ended in the procurement of a marriage license, engagement of a minister and the marriage. They returned to the jail, and telling what they had done, the father gave the son-in-law a job as assistant jailer, thus enabling him to pay the debt, and when he died the son succeeded him."

LAUNDRESS TOOK THE HINT. Made a Buttonhole Large Enough for

the Soldier's Improvised Button. The private soldiers' washing at a home station is usually done by the married soldiers' wives, who are expected to sew on missing buttons and do general repairs. Patrick McGinnis. says the Troy Times, had a good deal of trouble with his laundress. Sunday after Sunday had his shirt come back with the collar button off or else hanging by a thread. He had spoken to her on the subject, and she had promised to see to it, but still the buttons were always missing. One Sunday he got out of patience when a missing button had made him late for church parade. "Bad luck to the woman!" he extlaimed. "Begorra, I'll give her a hint this time, anyhow!" He then took the lid of a tin blacking box about three inches in diameter, drilled two holes in it with a fork and sewed it on the shirt, which he sent to be washed. When his washing came back he found his laundress had taken the hint. She had made a buttonhole to fit it!

ey Tuesday, Sept. 7, the Day After Labor Bay. The happiest man in town, on the happiest errand, with the next happiest man as his companion, was Henry W. Wiggins, President of the Board of Education, as he showed an Argus reporter

through the new High School Building,

this morning. Mr. Wiggins has watched carefully the progress of work on the building and is familiar with all the details of the structure, and it makes him light hearted indeed to see the structure so near comple-

The building is to be completed by September 7th, the day of the opening of the fall term, and things will be running smoothly in less than a week after that. Mr. Wiggins and the other members of the Board have informed Contractor Me-Williams that he must not keep 200 or 300 children out of school a day, and Mr. McWilliams has replied that not a day's delay may be expected.

All of the material for the completion of the building is here, and the work is going forward rapidly.

Looking over the main class room of the academic department, this morning, Mr. Wiggius said: "There is not a finer school room in the State than that," and it certainly bears out his statement. With wide, high ceilings, large windows, -etc., it is a model room; one in which the coming orator or elocutionist may train his voice for any occasion.

The building is fast taking on a look of completeness. Walls are all ou, black boards are up, windows placed, easings serected, and in fact most of the rooms are about ready for the laying of the floors.

The rooms on the second floor which will contain specimens and the chemical -department have shelves and closets already erected, and in the experimenting and lecture rooms raised seats are to be placed.

Three boilers are in place in the building and one is running to keep the dampmess from the building. The system of heating and ventilation for the building is nearly completed and it is modern indeed.

The desks, etc., will be here in August and when they have been placed the building will present an interior appearance that will almost awe the taxpayer who hardly knew how much of a building be voted for.

KILLED IN A FIGHT.

Fate of a Patient in the Poughkeepsie Asylum-An Investigation by the Lunncy Commission,

A patient at the Hudson River State

Hospital, Pouglikeepsie, named Rogan, died a few days ago, from the effects of injuries sustained in a tight with another patient who knocked him down and kicked him in the side. An effort was made to keep the mutter quiet with the result that a report was circulated and, believed by many, that the patient was injured by attendants.

The State Commission in Lunacy, at the request of Dr. Pilgrim, Superintendent of the Hospital, has made a searching investigation and has found no evidence of any brutality on the part of the attendants.

SAW CAPT. COX-

His Condition Shows Some Improvement and Friends are Hopeful.

B. L. Beebe, of this city, called on Capt. Cox at the Hudson Street Hospital in New York city, Thursday. He reports that the patient is cheerful and that his physical condition seems to be slowly improving.

The captain is interested in a peculiar feature of the day's accident. He wore a heavy gold ring set with a beautiful Brazilian topaz. This ring was broken in two somehow in the fall and the ends flattened down together, while his finger was not injured in any way. As the ring fitted very tightly, he is at loss to explain how it got off without hurting his

FIBROID TUMOR

Expelled by Lydia E. Pinkham's Vegetable Compound.

Interview With Mrs. B. A. Lombard.

I have reason to think that I would not be here now if it had not been for Lydia E. Pinkham's Vegetable Compound. It cured me of a fibroid tumor in my womb.

Doctors could do nothing for me, and they could not cure me at the hospital. I will tell you about it: I had been in my usual health, but

had worked quite hard. When my monthly period came on, I flowed very badly. The doctor gave me medicine. but it did me no good. He said the flow must be stopped if possible, and he must find the cause of my trouble. Upon examination, he found there

was a Fibroid Tumor in my womb, and gave me treatment without any benefit whatever. About that time a lady called on me, and recommended Lydia E. Pinkham's Vegetable Compound, said she owed her life to it. I said I would try it, and did. Soon after the flow became more natural and regular. I still continued taking the Compound for some time. Then the doctor made an examination again, and found everything all right. The tumor had passed away and that dull ache was gone.-Mrs. B. A. LOMBARD, Box 71, Westdale, Mass.

WITH THE FISHERMEN.

Good Catches of Fish from Many Places, Thursday was a lucky day for most of

the fishermen, though some well known rod experts returned empty bauded. T. A. Weller returned from Mombasha

Lake with 26 fine perch. E. W. Van Duzer captured 21 at the same lake. Wm. H. Louden captured six bass in

the old reservoir which weighed nine pounds. John Wilkin and Louis Roth caught 12 nice bass in the new reservoir, two of

which weighed nearly two pounds each. "Benny" Corwin caught two bass in the old reservoir which weighed two pounds each.

Mr. and Mrs. Theodore Frank caught 24 perch at Round Poud, near Mouroe. Several fishermen who saw the occurreuce are laughing over a "larmer's" attempt to catch bass from the roadway at the old reservoir near Andrew Bertholf's. He had a long reed pole and with might and main. Two in succession he slung through the air with so much ginger that they broke loose and landed in the lake on the other side of the roadway.

Frank Lewis, New Hampton's expert, and Willis L. Bagley have gone to the old reservoir, to-day, to beat all records. Wesley Decker captured three twopounders at the old reservoir, this moruing. He fished from 5 until 7:30.

Hundreds of citizens testiny to this. Here is a case in pourt.

Mrs. C. H. Coleman, of the Columbus Hotel, No. 46 Robert street, says:—"Kidncy disease runs in our family. I have been troubled for the past six years myself but the greater quantity of Dona's Kidney Pills I bought at J. E. Mills' drug store were for my mother and one of my brothers. Backache so severe 1 could not stand it, and too stubborn to be affected by plasters, home remedies or physicians' prescriptions, clung to me most of the time. I have left my bed late at night and gone to a doctor's, begging him for relief, I could not wait until he was sent for. Urinary trouble set in. The deposit alarmed me. My general health was impaired and I consider myself backy in being induced to try Donn's Kidney Pills. It was only a few days when I got relief and in five or seven, more my trouble had disappeared. When they cured me so promptly 1 immediately sent some to my mother, who lives at Glenwild, Sallivan county. Her farm adjoins the Sullivan County Club House. The first box I sent her did her so much good that she made me send her some more. I have sent some to my sister who has the same symptoms as I, but at present I cannot speak positively about her or my brother. I can about Doan's Kidney Pills. No words of mine can express my opinion. They are easy to take, leave no disagreeable after effect and go right for the kidneys."

Donn's Kidney Pills are sold for 50 ets. per box, or six boxes for \$2.50; for sale by all dealers; sent by mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
